Skills

- Python Programming
- Java Programming
- MySQL Programming
- GitHub Utilization
- HTML Programming

Soft Skills

- Communication Skill
- Attention to Detail
- Critical Thinking
- Research Skill
- AI Utilization Skills

Hobbies

Gaming

Drawing

Profile

An inspired student of Computer Science who is a specialist in artificial intelligence at Softwarica college. I am also passionate about problem solving, software development and the implementation of technical knowledge to real world projects. Interested in obtaining internship experiences to improve knowledge in software development, database management and AI apps.

Education

S.E.E — 2012-2022
D.A.V, Lalitpur
With GPA of 3.30

10+2 — 2022-2024
D.A.V, Lalitpur
With GPA of 3.45

BSc (Hons) in Computer Science with Artificial Intelligence — 2024-present
Softwarica College of IT & E-commerce, Kathmandu

Projects

CookBook

- *I used CRUD using Python to manipulate data that went through MySQL.*
- *Learned how to encrypt a password.*
- *Made a backend to display images according to ID extracted from DBMS. (The image was in blob form, then converted into an image, then only displayed.)*
- *Handled a lot of errors.*

Project Link: https://github.com/Kismat-adhikari/cookbook-firstsem

SKYdrop

- *Handled git. (git merging and branches)*
- *I was the sprint master.*
- *Made a functional search bar.*
- *Did most of the code for database interaction.*
- *Used NetBeans as the main development environment.*
- *Learned about jar files and the Java language.*
- *Learned how to make filters for certain categories.*
- *Resolved a lot of errors.*
